

# BURCU BAŞAK

After graduating with a degree in engineering, I received intensive training and carried out software projects for the last year to improve myself in the software field due to my intense interest in software. My goal is to increase my experience by starting to work in the software field and to manage a software team while continuing to work in software in the medium term.

## Work History

2024-04 -  
2024-05

### Fullstack Developer Intern

*Kredi Kayıt Bürosu*

- I successfully completed a personnel appointment system project using Java for the backend over a period of 30 days
- I developed a robust infrastructure, ensuring an efficient and secure system
- This experience helped me enhance both my technical and communication skills.

2024-01 -  
2024-02

### .Net Core Bootcamp Trainee

*Workintech*

- I accomplished a C# and .NET bootcamp designed specifically for Fimple Company, where I gained expertise in Object-Oriented Programming, REST APIs, middleware, EF, ORM, security, testing, Docker, RabbitMQ, and microservices architecture.

2023-02 -  
2023-08

### Full Stack Web Developer Trainee

*Workintech*

- Developing and implementing real-life projects in a team environment in a 6-month intensive and accelerated web development course
- Gaining proficiency in various technologies and playing an active role in project development.

2019-07 -  
2021-10

### Key Account Manager

*Ekolfood*

- Analyzing products/services for pricing, actively

.NET, C#, SELENIUM, APPIUM, J  
AVA, JAVASCRIPT, HTML, CSS,  
SQL, PYTHON, SQLITE, MYSQL,  
SQL SERVER, ASPNET CORE,  
RABBIT  
MQ, REDIS, DOCKER, REACT  
JS, NODE JS

engaging in customer visits, expediting tasks, and mentoring three sales recruits, resulting in immediate achievement of sales targets post-training.

2017-03 -  
2019-06

## Production and Quality Manager

*Burger X*

- Production management, cost control, purchasing oversight, personnel performance, customer demand fulfillment, and compliance with Ministry of Agriculture regulations.

## Education

---

2021-09 -  
Current

## Computer Engineer

*Ahmet Yesevi University*

2012-01 -  
2017-04

## Food Engineer

*Suleyman Demirel University*

## Certifications

---

Front End Development, Workintech, 08/2023

Full Stack Development, Workintech, 10/2023

ISO 9001:2008 Basic Quality Management Training

ISO 22000 Food Security Training

## Software Projects

---

- My Web Page, Full Stack Developer - React | Node, GitHub, Website, My website, which contains information about me and my personal portfolio, also includes my front end projects and their active links;, Pizza Project, Routing, Forms, JS, Shopping Cart Project, React, Redux, usecontext, Random Jokes Project, React, Redux, axios, Diary Project, localStorage, Redux, axios, Watch List Project, JS, Redux, axios, Movie Archive Project, React, Redux, axios, Front End, Javascript, React.js, Hooks, Context API, Redux, Axios, Yup, Jest, HTML, CSS, Cypress, Tailwind, Java, OOP, Design Patterns, Maven, Spring Boot, Data Structures, Spring Data, Spring Core, JPA,

## Languages

---

English

PostgreSQL, Spring Security, SQL, JUnit,  
Algorithms, Problem Solving

- Backend Challenge, Full Stack Dev. - React | Node, GitHub, Testablished the necessary dependencies for the project. The API includes multiple endpoints that handle various functionalities like user registration, login. Middleware functions were implemented to handle tasks such as request validation, authentication, and error handling. The API securely manages user authentication using JWTToken. Lastly, I performed unit tests for database access functions and integration tests for API endpoints to ensure proper functionality identify potential issues.
- Spring Boot Project, Full Stack Developer - Java, GitHub, A Spring Boot project was created using Spring Initializr. Using the Maven dependency management system, I installed all dependencies and used Spring devtools to ensure that the application restarted itself after each change. My goal was to define a Rest Api by writing endpoints that define CRUD operations
